

kids' DIY fit guide

for best results, keep their feet parallel with weight equally distributed while measuring!

- 1 fold the guide at the dotted line and place folded edge against a wall
- 2 standing up against the wall, have your child step on the logo and line up with the black semicircle
- 3 measure from the heel to their longest toe and mark it with a pencil
- 4 using a ruler, measure the distance between the black semicircle and the toe line
- 5 find the matching measurement on the chart to determine their size

fold along the line

children's (whole size)		
inches	(mm)	size
3 7/8	98	C2
4 1/8	107	C3
4 1/2	115	C4
4 7/8	123	C5
5 1/8	132	C6
5 1/2	140	C7
5 7/8	149	C8
6 1/8	157	C9
6 1/2	166	C10
6 7/8	174	C11
7 1/8	183	C12
7 1/2	191	C13

juniors (whole size)		
inches	(mm)	size
7 7/8	200	J1
8 1/8	208	J2
8 1/2	217	J3
8 5/8	225	J4
9	233	J5
9 3/8	242	J6

little feet fit facts:

- measure both feet, and order the larger size
- half-size? follow the "size up, size down" recommendations on [crocs.com](https://www.crocs.com)
- kids' feet grow fast so measure every time you order

please note: since feet are three-dimensional, any two-dimensional measuring tool, such as a ruler or Brannock device®, can only estimate shoe sizes.
